

# PRODUCT RECALL

## VOLUNTARY RECALL - **AUSTRALIA ONLY** ORIJEN CAT FOOD

Champion Petfoods is announcing the voluntary recall of its ORIJEN brand cat food sold in Australia. Consumers are asked to stop feeding ORIJEN cat food and return any unused portion to the place of purchase for a full refund.

**Limited to Australia**, this recall is based upon a number of cats within the Sydney area taking ill after consuming ORIJEN cat food.

Champion Petfoods is working closely with the Australian veterinary community to conduct a comprehensive and ongoing program of laboratory tests. Although results are unable to link ORIJEN cat food to illness in cats, we are recalling our product as a precautionary measure.

Due to the highly localized nature of incidents, the recall is issued for **AUSTRALIA ONLY** and research efforts are now directed toward identifying local factors unique to Australia.

ORIJEN is made with chicken, fish and egg that are passed 'fit for human consumption' in Canada and processed fresh. As these meats are included FRESH, ORIJEN products sold in Australia are required by law to undergo an irradiation treatment prior to distribution in Australia.

**The irradiation requirement is unique to Australia.**

Champion Petfoods is an award-winning, family-owned pet food maker. Our mission is to produce the healthiest and safest pet foods on earth – a mandate in which our entire staff are fully and passionately engaged. We are proud of our 25 year history of making world-class pet foods.
